Chemical Biology Seminars
Week of June 3, 2018

This seminar list is also posted at http://www.chembio.umn.edu.

Sponsored by: Department of Medicinal Chemistry

Upcoming Events

• June 11, "9th Annual Maurice Visscher Symposium", Keynote Address at 4:00pm, 3-120 Molecular and Cellular Biology Building, University of Minnesota. For more information, please visit https://www.physics.umn.edu/

• June 18, "4th David Grant Symposium Reception and Dinner", University Hall, McNamara Alumni Center, 5:00-8:00pm, for additional information contact Jessica Ward-Denison at jward-de@umn.edu or 612-625-4657.

• June 19-20, "4th David Grant Symposium", 2-690 Moos Tower, 7:00am-5:00pm, for additional information contact Jessica Ward-Denison at jward-de@umn.edu or 612-625-4657.

• June 22, "Pharmacogenomics Conference: Genomic Testing to Individualize Drug Therapy", 7:00am-5:00pm, McNamara Alumni Center, University of Minnesota. Contact pgxconf@umn.edu for more information.

• October 11-12, "6th Annual Wisc-e-sota: The Collaborative UMN-UW Virology Training Grant Symposium", Radisson Hotel, La Crosse, Wisconsin.

Monday, June 4 - No Seminars

Tuesday, June 5

John Schultz, Graduate Student
Dept. Medicinal Chemistry, University of Minnesota
Potentiation of Multiple Antibacterial Agents in MRSA and M. Tuberculosis
3:30pm, 1-450 Moos Tower (Medicinal Chemistry Seminar)

Wednesday, June 6

Stephen Archer, MD, Professor and Head, Tier 1 Canada Research Chair
Dept. Medicine, Queen’s University, Ontario
Mitochondrial Dynamics in Diseases of Excess Cell Proliferation: Jail Break by the Cell’s Powerhouse
12:00pm, 1-125 CCRB (LHI Seminar)

Thursday, June 7

Jerome F. Strauss, MD, PhD, Professor
Dept. Obstetrics and Gynecology, Virginia Commonwealth University
Sperm Tales: The Manchette as a Target for Male Contraception?
12:30pm, Room 105, 717 Delaware St. (ITDD Special Seminar)

Christine Mummery, PhD, Professor
Dept. Developmental Biology, Leiden University Medical Center, Leiden, The Netherlands
Complex Multicellular Cardiovascular Disease Models Based on Pluripotent Stem Cells
4:00pm, 1-110 MTRF (SCI Seminar)

Friday, June 8

David Leopold, PhD, Chief and Director
National Institutes of Health section on Cognitive Neurophysiology and Imaging Laboratory of Neuropsychology
Studying Local Neural Diversity using Whole-brain fMRI Readout
12:00pm, 2-103 CMRR (CMRR Seminar)

Christopher Richards, Doctoral Candidate
Dept. Pharmacology, University of Minnesota
HIV-1 Counteraction Mechanisms Versus APOBEC3-mediated Restriction
2:00pm, 1-125 CCRB (Pharmacology Thesis Defense)
Mark Ericson, PhD, Postdoctoral Fellow
Dept. Medicinal Chemistry, University of Minnesota
The Synthesis and Characterization of Novel Melanocortin-4 Receptor Probes
3:30pm, Room 105, 717 Delaware St. (Chemistry Special Seminar)

Alexander Spokony, PhD, Assistant Professor
Dept. Chemistry, University of California, Los Angeles
3D Aromatic Cluster-Based Building Blocks and Reagents
4:00pm, 331 Smith Hall (Chemistry Special Seminar)
